

2022 Election

Michigan Incidents

Registrations after 8pm

Michigan Department of State

Registering to vote on Election Day

Michigan law allows same-day voter registration. You can register to vote and vote in person at any time up to 8 p.m. on Election Day at your city or township clerk's office.

You'll need to bring your proof of eligibility and residency:

Proof of eligibility:

To be eligible to register to vote you must be:

- A Michigan resident (at the time you register) and a resident of your city or township for at least 30 days (when you vote)
- A United States citizen
- At least 18 years of age (when you vote)
- Not currently serving a sentence in jail or prison

Proof of residency:

You must show proof of where you live. Documents must have your name and current address. You can show a digital copy of documents. Acceptable documents include:

- Michigan driver's license or state ID
- Current utility bill
- Bank statement
- Paycheck or government check
- Other government document

Get your clerk's information and learn more at Michigan.gov/Vote

Voting for Dollars

- Moses Action “Ballots & Brunch”
- MSU pizza distributed in exchange for votes
- U of M Slotkins gift cards for votes (billed as GOTV)
- Ballot traffickers

Subject: Recent FOIA Requests

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Clerks,

We are aware that clerks have received a request for the following:

- "1. An electronic copy of the Qualified Voter File (QVF) extract for all precincts completed on Monday November 7, 2022 and loaded to the electronic pollbooks.
2. The historical electronic pollbook flash drive for all voting precincts in the jurisdiction for the election concluding November 8, 2022. (This is likely in a CSV – comma separated value format).
3. An electronic copy of the Qualified Voter File extract for all precincts completed as soon as the November midterm election voter history is uploaded to the QVF which must be within 7 days pursuant to MCL 168.813."

Before responding to these FOIA requests, you should consult with your city or township attorney regarding the requests and exemptions that may apply including those contained in MCL 15.243(1)(y) and (z). Under FOIA, you may shield sensitive information from disclosure. Clerks must not publicly release data or files that would reveal the software design or data architecture of the Electronic Poll Book, as doing so could compromise the Bureau of Elections' ability to secure and safeguard the software and data from hacking, theft, loss or destruction. In response to previous FOIA requests regarding EPB data, the Bureau of Elections has not disclosed these records because the records sought constitute "cybersecurity plans, assessments, or vulnerabilities" that are exempt from disclosure. The Bureau has an interest in maximizing the protection and defense of its information systems, which outweighs the public interest in the disclosure of this information as the release of this sensitive information could jeopardize the security of Michigan's electoral process. MCL 15.243(1)(y). In addition, the responsive records include sensitive information which, if released, "would disclose a person's cybersecurity plans or cybersecurity-related practices, procedures, methods, results, organizational information system infrastructure, hardware, or software." MCL 15.243(1)(z).

Further, electronic poll book files contain personal identifying information such as full birth dates for voters, which is exempt from disclosure. MCL 168.509gg. Attempted manual redaction of personal identifying information may not be sufficient to protect this information from disclosure if the software and program files are disclosed.

Please note that certain specific data derived from the qualified voter file electronic pollbook is subject to disclosure under FOIA, including the lists of registered voters from the Qualified Voter File and the paper printout of the electronic pollbook generated on election night. If members of the public are interested in verifying the names of individuals registered to vote on a certain date or included in the electronic pollbook, they may obtain this information by submitting a FOIA for publicly available records.

Additionally, we are aware that clerks received FOIA requests for a copy of or the opportunity to view tabulator tapes. While the tapes are a public record that can be provided, they are election records that should remain secured until security is released after the final canvass and certification, recounts, and audits. Once you are notified that security has been released in your jurisdiction, you can fulfill these requests.
