

EXPOSING ISLAMIZATION OF A NATION

(RADICAL ISLAM AND SHARIA LAW!)

There is a saying that we must consider. *“The greatest advantage an enemy can have over you is to make you believe he does not exist.”* Islam is a governmental theocracy. Islam affects the First Amendment with its rights to freedom of speech and freedom of religion. Islam is not compatible with the US Constitution in a nation of laws.

Political correctness, ignorance, subversive activity...has allowed Islam to take a foothold in all levels of American society. In other words, we had been infiltrated and purposely dumbed down to the dangers presently facing our nation...even by the current Democratic leadership in cities and our nation.

Sharia law will not **RECOGNIZE** nor is compatible with the U.S. Constitution. The Muslim Brotherhood (Terrorist Organization according to Holy Land Foundation Trial – are occupying positions in the highest levels of government including homeland security.

This is not some type of conspiracy theory. It is a reality. Even the current refugee crisis in our open borders is allowing non-vetted individuals into our nation who carry the ideology of radical Islam. You might say this is America's Trojan horse.

You must study your history and see the motive behind the religion of Islam. Many are saying that Europe is already lost because of what we can call immigration and population Jihad. The elections of 2016 and 2020 have made a pathway for Islam to take hold in our nation. We perish for lack of

knowledge... *My people are destroyed for lack of knowledge. Because you have rejected knowledge, Because you have rejected knowledge, I also will reject you from being priest for Me; Because you have forgotten the law of your God, I also will forget your children”* (Hosea 4:6).

True Americans must study and investigate what Islam stands for and represents. We are not saying all Muslims are bad people. Many in Islam are ignorant of their own religion just as many professing Christians are ignorant of Christianity. We call them blind followers.

DO YOU REALLY UNDERSTAND ISLAM?

Is Islam a religion of peace...what is the “Law of Abrogation?”

NO, Islam is not a religion of peace. We are at war with terrorism. To best understand why some say Islam is a Religion of Peace we must understand the Islamic term **ABROGATION**. This is where whatever Allah last said replaces what he previously said.

In other words, when their prophet Mohamed first created Islam in the 7th century, he had many

verses on peace, but as he got further revelation from the dark angel that was visiting him, he began to write more violent scriptures that contained Jihad. Abrogation was the term that whatever was written before was no longer true, but rather the new truth. In other words the earlier revelations of Mohammed are negated by his later revelations. Therefore, to say Islam is a Religion of Peace is coming from the verses in the Koran from the first 20 years of Islam and ever since then it has been a religion and government of violence with more than 270,000,000 killed by the sword of Islam.

What is Taqiyya?

Taqiyya is the Islamic term to lie to a non-Muslim. Lying is permitted in Islam if it furthers the cause of Islam or protects another Muslim. For a Muslim cleric to say that Christians, Jews and Muslims worship the same God is Taqiyya.

There are no other world religions that promote lying but as you will see with more Islamic invasion in Europe and the West, Islam allows for men to behave badly and declare their behavior acceptable because they are doing it in the name of Allah. When an Islamist says that he supports the U.S. or any state constitution they are lying to further the end goal of Islam – Sharia and civilization takeover.

Doublespeak... is the language that deliberately distorts, disguises, obscures, hides, or reverses the meaning of words. Islamists use this tactic to deceive Americans and Christians.

What is Sharia?

Sharia is Islamic Law. The word sharia means law. Sharia is rules and actions to live by just as governments write rules and laws to guide their citizens into what is acceptable behavior. You will often hear Muslim imams and clerics declare that there is only God's law and that all man-made laws must submit. America's Constitution, Bill of Rights, our 3 branches of government are not compatible with Sharia. Their goal is civilization takeover.

Is Sharia Law compatible with the US Constitution?

The answer to this question is categorically "**NO**". Since Sharia is believed by Muslims to be God's law and man's law must be removed or submitted to it, a conflict with the US Constitution arises. A brief example to show case this difference can be found in the First Amendment, where we are given Freedom of Speech and Freedom of Religion.

Sharia denies both. You cannot say anything you want particularly if it contradicts Islam. Not only do you not have freedom of religion, under Sharia, if you leave Islam the punishment is death.

You have three choices under Sharia, convert to Islam, pay a tax (Jizya) or be killed. Not much freedom there. Islam is not really a religion but rather a form of government. If you study the Quran, Hadith, and Surah, it boils down to 84% government and 16% religion.

Therefore, since Sharia and Islam are more like communism with a god, then it is not compatible with the US Constitution. The concept of liberty in Islam can only be found if you convert and adhere to all its rules and laws (sharia). In America there is a term called American Exceptionalism.

This comes not because we are better than other nations or have more wealth, but rather that we believe that God is Sovereign over Man and that Man is Sovereign over Government. No other world government takes this position including Sharia. They all believe that the government is sovereign over man.

What is Population Jihad?

The word *jihad* means “striving” or “struggle.” Within Islam, there are several categories of jihad. Yes, one is violent takeover. But one that is manifesting in our nation is population jihad. While we abort our children Islamist move to a region and have many children to impact the political process of a region to gain social dominance.

This is why immigration laws are so important to uphold. Islamist believe in open immigration, no borders, allowing non-citizens to vote, occupying a region for takeover. Look at what manifested in New York with Mandani. What about Plano, Texas where Islamist are taking over a city. What about Dearborn and Hamtramck, MI? Do not be fooled Americans must wake up or your children and grand children will have no future.

What is Hudna?

In the labyrinth of Middle Eastern diplomacy, few concepts are as misunderstood—or as potentially consequential—as the Islamic notion of hudna. Derived from the Arabic word for "calm" or "quiet", a hudna is often simplistically translated as a ceasefire or truce. However, as tensions in the region continue to simmer, a deeper understanding of this concept becomes increasingly important for policymakers and diplomats alike.

The roots of hudna can be traced back to the Treaty of Hudaibiyyah in 628 CE, a pivotal agreement between the Islamic prophet Muhammad and the Quraysh tribe of Mecca. This treaty, intended to last ten years, allowed Muslims to perform pilgrimage to Mecca and established a truce between the two parties. However, the peace was short-lived; within two years, Muhammad's forces conquered Mecca, citing violations of the agreement.

Israeli scholar of Arab culture at Bar-Ilan University, argues that this historical precedent continues to shape Islamic jurisprudence and diplomatic strategy today. According to Kedar, the hudna is not viewed as a path to permanent peace, but rather as a tactical maneuver to be employed when Muslims find themselves in a position of weakness.

"If you, the Muslim, are weak and the infidel is too strong, you can give him a temporary peace," Kedar explains. "The second thing is, if the infidel falls asleep on guard, you can do whatever you like to him, even within the time of the temporary peace, because this is what Muhammad did."

This interpretation suggests that a hudna is less a genuine peace offering and more a strategic pause—a time for regrouping and strengthening one's position.

WHAT IS THE GOAL OF ISLAM?

The goal of Islam is to slow walk America into installing Sharia Law. You slowly elect leaders into positions to influence the culture. Use population and immigration Jihad declaring they have peaceful intentions. It is a civilization takeover.

CONTROVERSIAL ASPECTS OF SHARIA LAW

REMEMBER... *Taqiyya* is the Islamic term to lie to a non-Muslim. Lying is permitted in Islam if it furthers the cause of Islam or protects another Muslim. We must understand why some say Islam is a Religion of Peace. We must understand the Islamic term **Abrogation**. This is where whatever Allah last said replaces what he previously said. Today this means kill the infidel, Christians and Jews. **Hudna** is another term where a false peace offering is given which is designed to be a strategic pause—a time for regrouping and strengthening Islam's position. The Iran war...Hmmm!
